2. **FOLLOWING DIRECTIONS (MAPS)** - These questions test your ability to follow physical/geographic directions using street maps or building maps. You will have to read and understand a set of directions and then use them on a simple map.
3. **RETAINING AND COMPREHENDING SPOKEN INFORMATION FROM CALLS FOR EMERGENCY SERVICES** - These questions test retention and comprehension of information in calls for emergency services. Some questions test retention of specifics, such as street addresses, or comprehension of the spoken information, such as determining the location of a site in relation to landmarks. Each of these questions is weighted 1.0. Other questions test comprehension and application of directions for filling in a form. Each of these questions is weighted 0.2. Several simulated 911 calls will be played on audio tape. After listening to each call, candidates will be asked from two to four questions about the information that was presented in the call. The time to answer them will be limited. The tape will keep track of the time and, at the end of each answer period, will automatically begin to play the next call. Note paper will be provided. Candidates will be permitted to take notes and to refer to them when answering the questions.

You must pass both the written and performance tests to be considered for appointment. You will not be called to the performance test unless you have passed the written test. In order to pass, you must enter the data at a rate of at least 6,000 keystrokes per hour (which is equal to typing approximately 20 words per minute), with an accuracy rate of at least 97.5%.

RETEST POLICY: Candidates who fail the performance test will be permitted a retest which will be given immediately after the original performance test.
